

Energy Unlimited Inc. has the experience and ability to provide you with the equipment and products that will fill your needs. We manufacture our furnaces in our Dodgeville facility. We also build our own control panels and install the furnaces at your site.

Energy Unlimited Inc.

can help solve both your energy and waste problems at the same time!

Energy Unlimited Inc. can burn your waste and provide you with economical heat.

Energy Unlimited Inc. can offer direct air heating or hot water for your heating needs.

If you have a dry low value bio-mass product and a need for heat, Energy Unlimited Inc. can help you keep your profits at home where they belong.
